FRISCO MEANS TO RESENT NEGLECT

Ugly Charges Against the West-
ern Union and Postal.

The Uncovering or Removal of the
Debris Belongs More to
Light.

CONDITIONS DAILY IMPROVE

San Francisco, May 9.—Charges
involving the western Union and Postal
telegraph companies have been
brought before the grand jury and a
committee appointed to investigate
the report at its next meeting on
Saturday. It is charged that both
companies received paid messages after
the earthquake and sent them by
mail while wires at Oakland were
working. It is estimated the two cor-
porations collected a quarter of a mil-
lion dollars since the fire and neither
contributed anything to the relief
fund.

More Bodies Found.

San Francisco, May 9.—The only
blot on the cheer of the day came in
the reports of those who note the
finding of the dead. Around Port-
smouth square, where there were many
cheap hotels and lodging houses,
the loss of life during the earthquake
seems to have been much heavier
than was at first supposed. The soldi-
ery stationed at that point have re-
moved at least a score of bodies from
the wreckage, but several bodies
have not yet been recovered, so in-
extricably are they imprisoned.

Other bodies are being found, with
increasing frequency, south of Mar-
ket street, three having been un-
covered this morning in Tehama street,
and it is believed that the total num-
ber of those killed in the great catas-
trophe will more than double the
earlier estimates.

Many Being Fed.

San Francisco, May 9.—Though
260,000 persons were fed from the
various relief stations now it is hoped
that the number of rations issued
each day will be materially reduced
by the end of the week, if not cut
half. The repenters and impostors
are rapidly being eliminated from the
bread lines; the men willing and
able to work are being supplied with
work, and those able but unwilling
are being forced to do so. No woman
or child is going hungry or is likely
to go hungry.

All Go to Work.

San Francisco, May 9.—Freed at
last from immediate fear of famine,
men and women of this stricken city
have set about the rehabilitation of
their fallen fortunes with more en-
ergy than they have displayed since
the earthquake.

Through all the vast area that a
week ago was a deserted, desolate
waste of smoldering ruins the clink
of pick and shovel, of crowbar and
trowel mark the minutes.

Some Go Hungry.

The men who have not joined the
army of diggers and delvers are not
idle—always excepting, of course,
the incompetent and shiftless—is ap-
parent everywhere. This is particu-
larly true in Fillmore street where
the buildings on either side are lit-
erally plastered with canvas signs
heralding the installment of some in-
terrupted industry. Van Ness avenue,
too, is becoming a busy center of ac-
tivity among the notable firms of re-
tailers whose careers must begin
anew.

More Government Money.

Washington, May 9.—The presi-
dent yesterday transmitted to con-
gress a letter from Secretary Taft
recommending an appropriation of
an additional \$500,000 to meet the
condition in San Francisco.

Secretary Taft's letter shows that
of \$2,500,000 appropriated, \$2,501,-
333 has been expended, or contracts
been made which will consume this
sum. The expenditures are divided
among the various departments as
follows:

Quartermaster's department, \$1,-
741,664; subsistence, \$229,435;
medical, \$304,539; signal corps, \$15,-
000; mileage, \$14,695. Estimates
were given of the cost of returning
troops from San Francisco to stations
where they are on duty and the det-
er also gave the transportation
charges on all supplies taken from
the army posts for use in California.

Will Accept Funds.

eral committee today decided to ac-
cept Canada's relief fund of \$100,-
000 which President Roosevelt de-
clined. The Paris contribution which
now amounts to 120,000 francs will
be sent to this city.

Two More Quakes Felt.

San Francisco, May 9.—Two light
earthquake shocks were felt shortly
before last midnight. No damage
was done and no alarm is felt. Liver-
more reports quite a severe shock.
Police today began to raid houses
where the people are gathering re-
lief supplies in excess of regular rat-
ions. Its confiscation and punish-
ment follows where the loot is un-
covered.

CUMBERLAND TELEPHONE CO.
BUYS UP THE WICKLIFFE CO.

This and Other Investments Will Give
First Company Five Exchanges
in Ballard County.

The Wickliffe Telephone company
interests in Wickliffe have been
bought by the Cumberland Telephone
company and the Cumberland people
now have a thorough service in Bal-
lard county.

Yesterday a franchise was bought
in the town of La Center and this
with the Wickliffe service will give
the company a total of five exchanges
in Ballard county, and all under the
supervision of the local headquar-
ters.

The Cumberland company is ex-
panding in this end of the state and
entering new territory as fast as
possible, intending to give a perfect
service to all parts of Western Ken-
tucky and Tennessee. The price paid
to the Wickliffe company is not made
public, but it is said to be rather
steep considering the size of the
plant. Improvements will begin at
once and the system made as perfect
as possible.

GALE OFF CLEVELAND.

Ships Moored Craft and Several Lives
Are Lost.

Cleveland, May 9.—The schooner
Algeria, tied up off this harbor, as a
result of the great lake strike, sunk
early this morning in a terrific gale
then prevailing. It is reported the
captain, the steward and a sailor
went down with the boat. A barge
was sighted this morning in distress
a mile off the harbor. The life savers
went out and took off a crew of eight.

VESUVIUS ACTIVE AGAIN.

The Main Crater Is Discharging Sand
and Clinders.

Naples, May 9.—Vesuvius is again
showing considerable activity. Yester-
day a dense column of smoke
arose from the crater and spread like
an umbrella accompanied by loud de-
tonations and electrical discharges
which are especially noticeable from
Resina. The main crater is dis-
charging sand and clinders.

Was Not Assassinated.

St. Petersburg, May 9.—There is
no foundation in fact for the report
telegraphed from Kieff today that
General Ignatieff had been assassinated.
Ignatieff is in St. Petersburg
and not in Kieff.

Miss Grace Gardner and Miss Ag-
nes Carney, of Mayfield, are visiting
Mrs. Albritton, on Jefferson street.

ARRANGEMENTS TO OPEN
RUSSIAN PARLIAMENT
ARE COMPLETE.

St. Petersburg, May 9.—Final
arrangements have been com-
pleted for the formal opening of
the National Duma tomorrow.
A noticeable feature is the prepa-
rations to safeguard Czar Nichol-
as during his visit to the Win-
ter Palace. He will open the
duma in person, but the people
will not be allowed to see the
czar when he arrives in the city.

CHICAGO TO HEAR TRUST INQUIRY

Interstate Commission to Pros-
ecute the Investigation.

Fake Companies of Standard Oil
Company Used to Stop
Competition.

SENSATIONAL FACTS PROMISED

Chicago, May 9.—Interstate Com-
merce Commissioners Clements,
Proctor and Cookrell will begin to-
morrow in Chicago an inquiry into
the Standard Oil company's relations
with railroads. This is a continuation
of the hearing began in Kansas City
and in pursuance of an order of con-
gress. It is believed important testi-
mony will be secured from a number
of the former employees of the Stand-
ard.

Fake Companies Used.

Columbus, O., May 9.—In a pre-
liminary report of his findings as to
the methods of the Standard Oil
company in Ohio, made public
through the Standard Oil trust, in
obedience to a decree of the supreme
court of Ohio, reorganized in 1899,
cancelling the trust certificates then
outstanding and putting all the prop-
erty they represented in the hands of
the Standard Oil company of New
Jersey, it has continued to violate the
Valentine-Steward anti-trust act just
as before.

In that reorganization, he says, it
incorporated the departments of the
business separately. The Buckeye
Pipe Line company, he says, does all
the Standard pipe line transportation,
the Union Tank company carries
all its oil by cars. The Solar Re-
fining company does its manufactur-
ing, while the Ohio Oil company col-
lects the crude oil from the wells in
the fields. That these concerns rep-
resent the same interests is shown by
their tax returns that are all made
on the same day on similar forms,
and they are all represented by the
same attorneys.

The Standard absolutely fixes the
price of crude oil. Independent com-
panies run their bids up or down with
the Standard price. But by organiz-
ing "fake" companies the Standard
manages to drive out competition
without changing oil prices every-
where, which would be disastrous to
the Standard itself. Such a fake com-
pany is the Manhattan, operating in
the Findlay field.

SAVED BY STRENGTH
AND DARING MAN

Workmen Suspended 125 Feet in Air
Rescued After Trying Ordeal.

Philadelphia, May 9.—John Bur-
nett, who had ascended a 125 foot
stack in the suburbs to pull it down
had just begun work when his scaf-
fold broke. Burnett caught with his
arms just over the crown of the
stack and was thus compelled to
hang from 7 a. m. to 8 p. m. before
he could be reached by rescuers. A
steep ladder, Joe Corbett, could
only reach him by ascending the in-
side of the stack after the hardest
labor, with a rope, which both men
used in descending.

COLD WEATHER AND FROSTS

Are Said to Have Damaged Small
Fruits and Garden Truck.

Cincinnati, May 9.—Reports from
throughout the Ohio Valley indicate
much damage to vegetation and the
crops by the cold weather and frosts.
The strawberry crop is practically
destroyed and early tomatoes and
cucumbers ruined. There are fears
for blue grass seed in Kentucky as
the grass is heading.

A Michigan Tornado.

Ann Arbor, Mich., May 9.—A tor-
nado accompanied by an electrical
storm did \$10,000 damage here yester-
day. The Methodist church steeple
was struck by lightning and burned
nearly to the roof of the church.

Furious Snow Storm.

Plainfield, Wis., May 9.—A fur-
ious snow storm prevailed over cen-
tral Wisconsin Monday night and
yesterday equalling a winter storm.
Eight inches of snow fell.

of banking ordered the closing.

PARLIAMENT WILL BE A MERE FORM

Czar's Deception Angers People
to Danger Point.

Empire Will Have No More Freedom
Than Before and New Cabinet Is
Simply a Lulid.

DISSATISFACTION ON ALL SIDES

St. Petersburg, May 9.—The dan-
ger of an early conflict between the
government and parliament has been
greatly increased by what has hap-
pened within the last 24 hours. The
good impression produced by the of-
ficial intimation of the new premier
that the emperor and the government
were sincerely desirous of working
in harmony with parliament, which
was accepted in good faith by the
leaders of the constitutional demo-
crats, enabling them to counsel mod-
eration, has largely been dissipated
and in its place the old feeling of dis-
trust has been revived.

The liberals are utterly dumb-
founded, in view of the semi-official
assurances on the subject, by the un-
expected promulgation late last night
of the obnoxious fundamental law in
a slightly modified form. At one
stroke it put an end to the claim
which the new cabinet tried to foster,
namely, that the downfall of the
Witte cabinet was due to imperial
disapproval of the original draft of
the law.

An article in the law not men-
tioned in last night's dispatches, ex-
empting crown lands from taxation
and expropriation, and another re-
serving the power of amnesty for po-
litical prisoners to the emperor run
counter to the already expressed will
of the majority, and are bound to
produce a clash.

Commendable New Feature.

The only commendable new fea-
ture of the fundamental law is a pro-
vision to the effect that imperial or-
ders must be countersigned by the
president of the council of ministers
of the member of the cabinet whose
department is affected. But so long
as the cabinet is not responsible to
parliament it is easy for this emperor
to dismiss an unwilling minister and
replace him by one who will do his
bidding.

The indignation aroused by the
emperor's attempt to build an artifi-
ficial dyke around the prerogatives
of the crown has been intensified by
the astounding action of the police
last night in dispersing a meeting of
some members of the lower house of
parliament and of the upper house,
or new council, of the empire, at the
hall of the economical society. With-
out any warning the building was
surrounded by the Ismailovsky Guard
Regiment, and a detachment of cav-
alry and a hundred policemen march-
ed into the hall, where Count Hey-
dell, a marshal of the nobility and a
member of parliament for St. Peters-
burg, was presiding and ordered the
meeting to disperse under instructions
from the chief of police.

In spite of vigorous protests that
the meeting was entirely legal, under
the regulations governing the soci-
ety, the police captain who was in
charge of the police and troops was
inexorable, and the members of
parliament were compelled to yield
to force, and left the hall, after draw-
ing up a formal protest, which was
signed by 28 members of parliament.

Scene of Fury.

M. Rodicheff, a member of parlia-
ment for St. Petersburg, hurried af-
ter midnight to the hall where the
constitutional democrats were hold-
ing their convention and announced
to the members there assembled the
action taken by the police. An inde-
scribable scene of fury followed, af-
ter which Rodicheff, in an impres-
sive speech, which was cheered to the
echo, declared that the government's
appeal for confidence had again been
false, and that the people must rely
upon themselves. It was decided that
one of the first things after the as-
sembling of parliament shall be a
demand for this dismissal of chief of
police.

As these incidents were not suffi-
cient to excite members of parlia-
ment the local authorities with a fa-
tuous genius for blundering inflamed
the working classes yesterday. With-
out warning they ordered many of
the leaders of the workmen to leave
the city. They were not even given
time to remove their families.

The matter was brought to the at-
tention of a meeting of 122 peasant
workmen members of parliament,
who denounced it as an attempt on

the part of the government to bring
about a strike on the eve of the as-
sembling of parliament for the pur-
pose of provoking a struggle, and un-
der cover of the disorder to dissolve
parliament. Nevertheless, the meet-
ing appealed to the workmen at this
critical juncture to do nothing rash
and to trust in parliament to fight for
liberty against repression.

This meeting also appointed a
"scandal committee" to collect evi-
dence of violations of the rights of
members of parliament, two of whom
one a priest, have been searched
since their arrival in St. Petersburg,
and also to investigate the conspi-
racy on the part of the authorities to
induce members of parliament to
lodge in government buildings.

Dropped Dead at Banquet.

Detroit, Mich., May 9.—Alfred
Russell, 76, one of the prominent at-
torneys, formerly United States at-
torney for the eastern district of
Michigan, dropped dead while deliv-
ering an address last night at a De-
troit club banquet, of heart disease.

FOR ONE WEEK

PADUCAH CARNIVAL ASSOCIA-
TION TAKES OUT COUNTY
LICENSE.

To Prevent Litigation With County
Association Pays in \$300—
County Not Through

This morning Messrs. R. G. Davis
and L. A. Lagomarcino, representing
the Paducah Carnival Association
paid into the county clerk's hand
\$200 for a license to operate the car-
nival in McCracken county from
May 7th to 12th inclusive. This is
for the last and not first week the
carnival operated, and County At-
torney Alben Berkley stated that this
would not suffice to stop the litigation.

"The statutes read that a penalty
in such cases of 20 per cent may be
attached, and I presume the associa-
tion or carnival company could and
will be made to pay this. I think
the carnival will have to pay a li-
cense for the first week it operated
too, and this matter will be pushed
in Justice Emery's court Friday."

The license is agreed on by the
county clerk, the law leaving it in his
discretion. The clerk fixed a license
of \$50 a day which is for all shows
pleasure privileges such as merry go
round, ferris wheel etc.

The church people who are fight-
ing the carnival's further operation
declared this morning that if the
merry go rounds and spelling, etc.,
was carried on, in fact if the carnival
was operated in any way and prayer
meeting disturbed, warrants for dis-
turbance of public worship would be got-
ten out.

SENATOR GORMAN'S ILLNESS.

It Is Believed He Will Never Return
to Duties.

Washington, May 9.—Rumors to
the effect that Senator Gorman, of
Maryland, is in a critical condition
were denied by a member of his
family this morning. It was stated
that the senator had a slight relapse
a few days ago, but had steadily im-
proved since. Today he is feeling
much better and stronger. However,
it is extremely doubtful if the senator
ever will resume his duties in the
senate.

A Veteran of the Press Dies.

St. Paul, Minn., May 9.—Joseph
A. Wheelock, editor of the Pioneer
Press, died this morning from ex-
haustion following old age. He was
75 years old. He was a power in the
Republican party, and did much in
upbuilding the northwest.

DANGEROUS CONSPIRACY
AGAINST GERMAN
EMPEROR IS DISCOVERED

Berlin, May 9.—A dangerous
anarchist conspiracy to assassi-
nate the German emperor, was
discovered and frustrated at Ur-
ville Friday. This morning the
police discovered a quantity of
dynamite on the premises suffi-
cient to destroy the entire pal-
ace. Five foreigners were arrest-
ed and identified as notorious
anarchists. Documents in their
possession prove an elaborate
plot to murder the emperor.

PERKINS CASE BEING HEARD

Argument Was Begun Yester-
day in New York City.

The Question to Be Settled Is, Was
Insurance Political Contribu-
tions Larceny?

FELONIOUS INTEREST DENIED

New York, May 9.—Argument was
begun yesterday on the George W.
Perkins case in the appellate division
of the supreme court. Mr. Perkins
was formerly vice president of the
New York Life Insurance company.
He was brought before the court in
March on a charge brought to test
the question whether the making of
political contributions from insurance
companies' funds constituted a crime.

The case now comes before the ap-
pellate division on an appeal from a
ruling by Justice Greenbaum that
such contributions constitute lar-
ceny. Mr. Perkins was represented
today by former Judge William N.
Cohen, Lewis L. Lefebvre and How-
ard L. Gans. In opposition to the
appeal appeared District Attorney
Jerome and Samuel Untermyer.

Judge Cohen in opening the argu-
ment contended that there is not suf-
ficient legal evidence to justify the
magistrate in assuming jurisdiction
in this case and the property taken
was contributed for the benefit of its
true owners.

Judge Cohen then presented a se-
ries of arguments along the same
line, which counted for Mr. Perkins
followed when the case was argued
before Judge Greenbaum. Judge Co-
hen said that if the court held that
in campaign contributions the prop-
erty was not taken for the benefit of
its true owners then the proper
course of action would be active suit
to recover it. He declared that at
the time it was made Mr. Perkins'
contribution was not prohibited by
law. The chief question, said Judge
Cohen, "is one of intent and there is
absolutely no proof of felonious in-
tent."

District Attorney Jerome made an
argument in support of Justice
Greenbaum's decision.

FINDS A NEW PEST AGENT.

Disease Reported Spread by the
Common Electric Light Bug.

Millwaukee, Wis., May 9.—Building
Inspector Koch has discovered a
tuberculosis disseminating agent
which will be brought to the atten-
tion of the tuberculosis convention
which meets here this week. It is
the electric light bug, an insect
which often grows three inches in
length and which may be seen flying
around are lights any night in the
summer.

During the examination of drains
and manholes he found that these in-
sects live in the manholes in the vi-
cinity of the are lights. Their food
appears to consist entirely of the
slime along the walls of the manholes
and when they fly out in the evening
they undoubtedly are an important
factor in spreading disease, he de-
clares.

BREWING COMPANY IS SURE.

Town of Fulton Wants Concern to
Pay for Selling Liquor.

Hickman, Ky., May 9.—The com-
monwealth of Kentucky has entered
a civil case for the May term of Ful-
ton county court against the F. W.
Cook Brewing company of Evansville,
Ind. They have been sued on the
charge of selling intoxicating liquors
without license. The suit is brought
for extracting a penalty for selling
said liquors in the county and city of
Fulton some few months ago. This
case has caused much comment, par-
ticularly because of the Cook Brewing
company's suing eighteen citizens of
Hickman, Ky., Fulton county, for \$5,-
000 apiece, making \$90,000 in all.
This case has been entered twice in
the United States federal court at Pa-
ducah and postponed both times.

The British Squadron Growing.

Malta, Isle of Malta, May 9.—The
second British cruiser squadron in
command of Prince Louis of Batten-
burg, is expected to reach Pratus and
join Admiral Behrford's fleet, which
is being assembled to close Turkish
waters and make naval demonstra-
tion in case it is necessary for Great
Britain to take such action to enforce
her ultimatum to Turkey.

OFFICIAL BOARD ELECTED.

Carbondale Coal and Coke Company Elected Directors and Officers.

A meeting of the stockholders in the Carbondale Coal and Coke company, in which Paducah capitalists are interested the most, was held at Princeton, Ky., yesterday. A board of directors with a few changes was elected.

The new board has the following personnel: Samuel McAlfalter, Princeton, Ky.; William Marble Brack Owen, J. A. Bauer, Robert Owen, F. W. Katterjohn, of Paducah, and E. F. Einbigger, of New York.

Mr. Katterjohn was elected to fill the vacancy caused by the death of Mr. George Rock, and Robert Owen was elected to fill the place of Mr. F. McAlfalter, of New York, who was dropped.

Following the election of directors Brack Owen was elected president, treasurer and business manager, and Sam McAlfalter, of Princeton, made secretary.

The company owns mines at Hamby Station, Ky., and does a very good business.

PRIVATE LIGHT PLANT.

Elks and Odd Fellows May Co-operate in Establishing One.

There is a move on foot to install a private electric light plant for furnishing lights to the Fraternity and Elks buildings and the Odd Fellows at a meeting last night appointed Messrs. J. H. Ashcraft and Pete Beckenbach a committee to investigate the cost and altitude of the Elks. The rear of the two buildings nearly join, and a plant could be set up in the boiler room very easily. The annual light bill of the Fraternity building is said to amount to from \$1,200 to \$1,500.

Seven to two in favor of the Indians was the result of the third battle with the Jacksonville Belites. The game seemed more of a formality as far as the attendance was concerned, being played merely because it was scheduled and the weather was not too bad to necessitate a postponement.

We will not say anything about the attendance, but will restrict ourselves to the game, the players being the principal "rooters" in the park yesterday.

The weather was cold but the players worked with a snap, desiring to punish themselves as little as possible. The visitors sent Fox into the box and he proved anything but what his name implies. He was easy prey for the Indians' war clubs from the start.

The Indians scored two runs in the first inning. Taylor drew four wide ones and McClain singled. Taylor and "Mack" pulled off a double steal and Gilligan popped out to the infield. Haas singled to left field and scored the two runners, himself being thrown out while trying to make second on the throw to the plate. Wetzel's failure to connect after three trials retired the side.

The Indians did it again in the sixth inning. Gilligan was retired and Haas singled, stealing second a few moments later. Wetzel grounded out and Perry's single scored Haas from third, Haas having made third sack on Wetzel's out. Miller fled out, retiring the side.

In the eighth inning the Indians picked up four more runs. Chenault missed three over and Wilgus walked and stole second. Taylor hit to third base and Merohon fumbled, Taylor making safe as did Wilgus on third. McClain singled and scored Wilgus, himself being retired while trying to make second on the play. Gilligan walked and Haas drove out a three sacker, scoring Taylor and Gilligan, himself coming in on Wetzel's single

drive. Perry fled out, retiring the side.

The Jacksonville Belites scored two in the second inning by a home run and single. Hughes singled and was followed by Lotshaw's drive over right field fence. The remaining Innings were uneventful for the Belites in score getting.

Danville Makes It Two.

Danville, Ill., May 9.—Danville took today's game by hard playing making it two out of three on the home grounds. The Hoosiers battled hard, however. The game went ten Innings and was a slugging match on both sides.

The score: R H E
Danville 6 12 2
Vincennes 5 9 1

Batteries—Christman, Holycross and Shaw; Whitley and Matteson.

Cairo Still Wins.

Cairo, Ill., May 9.—Cairo "trimmed" Mattoon again by hard hitting Wolfe and Long being prominent in the slick work.

The score: R H E
Mattoon 3 14 1
Cairo 4 14 0

Batteries—Berryhill and Langdon, Hatch and Wolfe.

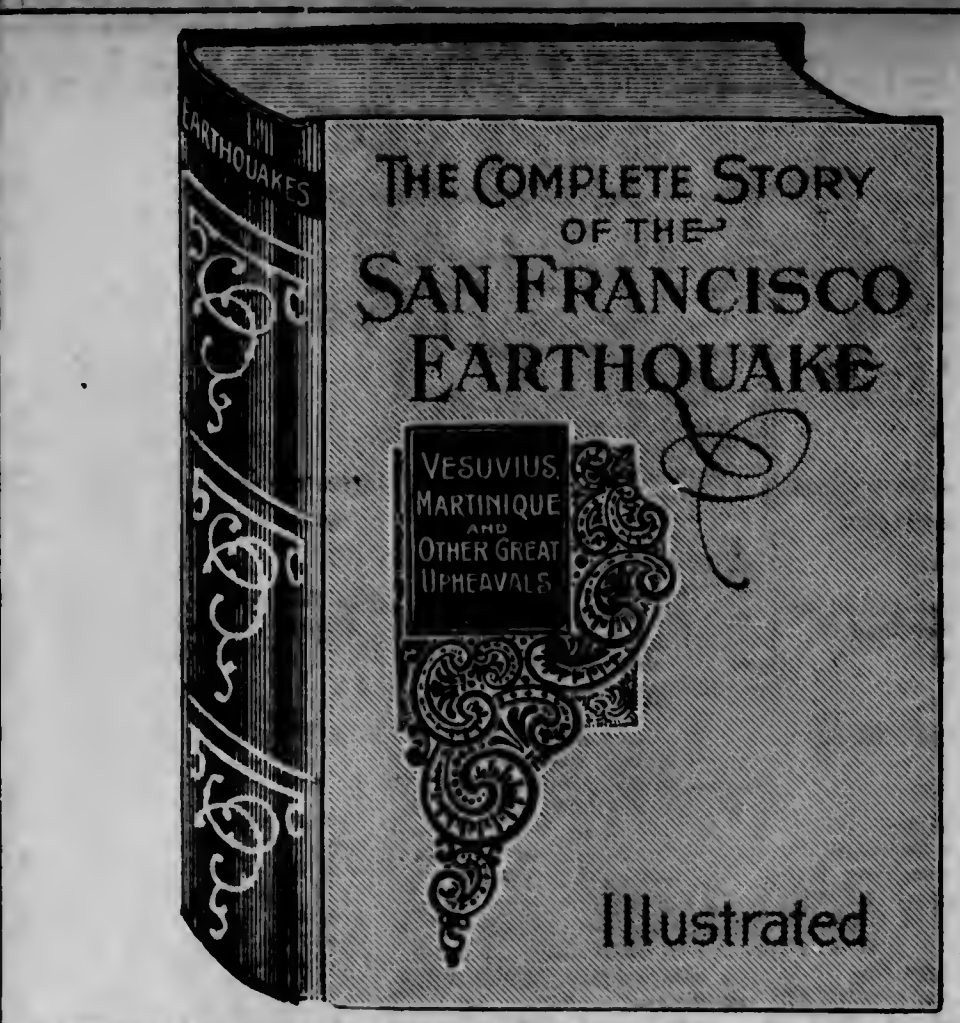

Peace Pipe Tales.

Haas made three hits, one a triple yesterday. That's "going some" after the record of Wolfe, the meteoric hitter of the Tadpoles aggregation down the creek. We are anxious to see Wolfe, to see what kind of a slugger he is.

The Indians played nearly an errorless game yesterday. For the first time since it can be remembered "Brownie" McClain dropped a ball and one right in his hands. It looked so easy that McClain did not grip it hard enough.

Chenault made a "Grover Land" catch yesterday, running into the players' bench awning after a foul fly and shooting the ball straight to third to prevent a steal.

The Danville team, as predicted, is pretty strong and the strength of the other teams is also underestimated.

A Complete Story of the San Francisco Disaster for 50c. Read the Conditions Below

The Sun has a limited number of copies of "The Complete Story of the San Francisco Disaster" handsomely bound in red silk cloth and illustrated with pictures and a complete thrilling story of the disaster. Orders will be taken for the books now and they will be delivered in a few days. The only conditions is you pay fifty cents for express and delivery of the book, and agree to take The Sun for six months. This is for old and new subscribers, and as our supply is limited, occasioned by the great, universal demand for this story, which is the best yet written of the most thrilling incident of recent history, we suggest you phone your orders in at once.

PHONE 358...THE SUN.

Mattoon and Jacksonville are both strong, but are not in good condition. Each team has good players and will put up a battle when they get straightened out.

Two from Danville, two from Vincennes and then the battle with our old rivals, the Tadpoles, alias Mud Wallowers, alias Egyptians, alias Slick Water Papasites and withal Alleged Ball Players. We hope to see "Pap" Farnbaker here during the series. We want him to see the team and then he may know "from whence he writes." In other words we want to show him what we have got—just "settle him."

It is said that the sporting element in Cairo is backing the Paducah team for all the money they can get. The real sports in Cairo know a good thing when they see it.

Eddie Gilligan's in the game all the time.

Wetzel showed up fine on third sack yesterday. He is fast and is getting his eye well on the ball.

The weakest hitters in the Indian lineup this season are as strong as some of the strongest last season.

"Chief" Lloyd wants two out of three from Danville. The fans are urging the Indians to make it three straight, and some little coin is being placed on the result of the Paducah-Danville series.

Weldon South's arm is sore and he will probably not be able to do good work for a day or two.

The Danville bunch came in this morning at 7:15 and are looking for trouble. It is not known who will pitch for the visitors, this not having been decided, but big Fred Miller the southpaw, is slated to do the

throwing for the Indians.

Wanted—An umpire who can suit a losing team or teams. Until we get one in the K'ty, the path of the umpires will be strewn with thorns. Poor "umps"—he can't suit 'em all. If he decides one way he gets hated from the players, and will see himself in uncomplimentary print in the papers if he decides the other way.

"I call 'em like I see 'em," Devanney declared. "If the players don't curve balls and can't hit, it's no funeral of o'face. The players ought not to try to 'show me up' for their inability to hit."

Even though there has been a great deal of knocks against Devanney's umpiring it cannot be truthfully said that he helped Paducah get her games. No decision made by Devanney that can be questioned at all gave Paducah an "edge" on any game. On the contrary he has decided very much against Paducah in several instances.

When "Pap" Farnbaker, who seems to be the only writer in the circuit who states he believes that Paducah is being aided by a tenth man—the "umps"—sees the Indians this year, it will convince him that the umpire has little to do with Paducah's winning. Honestly now "Pap," you don't believe it, do you?

Tomorrow is Ladies' Day.

Automobiles and huggies line the road and fill the woods about the baseball park on pretty days. It looks like the old-fashioned county fair from the outside.

The resignation of Umpire M. J. Devanney was formally accepted by President Gosnell and Devanney left at noon instead of going to Jacksonville, for his home in Cincinnati. It is not known who his successor is.

Umpire Devanney Quits.

Devanney, the little "umps" who has officiated here since the league opened, sent in his resignation yesterday. He says he will go to Paris, Ky., where he has a deal on to take part charge of an independent team. He also has a position in a wholesale mercantile firm offered him. He left with the Jacksonville team but will not remain any longer than necessary to secure a successor. He has been unsatisfactory to the two visiting teams but any bad decisions he made were honest ones. Devanney plays no favorites and is as good for one as the other.

Evansville Wins a Game.

Wonder of wonders, Evansville has won a game and made it a shut-out at that. The game was taken from the champions of the Central league, Wheeling, W. Va.

The score: R H E
Evansville 2 0 0 0 0 0 2 1 0-5 1 1
Wheeling 0 0 0 0 0 0 0 0 0-1 7

Batteries—Freeman and Fuller; Schafer and Shriver.

The umpire must have been sober this game.

LAST MEETING.

Educators Will Meet for Last Time Friday in Regular Monthly Session.

The teachers of the city schools will meet Friday afternoon to render the last program in the regular annual course of study. The meeting will be conducted by Prof. W. H. Sugg and will likely be very interesting inasmuch as it is the last of the term.

The teachers will meet a week or two later in called session for the purpose of arranging questions to be submitted pupils for the closing tests.

Woman's Burden

No matter what experience has shown, there will always be some women who believe that they must, at least once a month, bear the burden of PAIN, as a part of woman's lot. They must, if sick. If well, not. Periodical pain is a sign of functional disease,—a cry of your nerves for help. To strengthen and restore the diseased organs to health, take

Cure every kidney ill. H. C. Jones, of Newbern, Livingston county, Ky., writes: "I had backache for seven years and I sought for a long time something to check the excessive flow of the kidney secretions but found no relief. I was weak, had the backache all day and night for forty years. I could not sleep well and was about giving up all hope of ever being relieved for I had consulted doctors and tried everything I could get hold of. When I first saw your advertisement in one of the papers I concluded to try Doan's Kidney Pills, and I got a supply. I found to my joy that they gave me great relief. I was entirely freed from pain and also from the irregularities which had annoyed me so much. That was over five months ago, and I have not had a headache since, although I had suffered in this way since I was a small boy. I have recommended the pills to 50 different persons, some of them in Paducah, and a great many have reported to me the good results they have derived from using them."

DEMOCRATS JOKE IN DECLARATIONS

Their Claims About Carrying Indiana This Year Are Largely Not At All.

Washington, May 9.—Representative Charles H. Landis thinks that the Democrats who are making claims to a Democratic victory in Indiana this year, are great jokers.

"Why," said he, "the Republicans will carry Indiana anywhere from 10,000 to 50,000. Do you suppose that the people of Indiana are going to vote for soup houses just because Gov. Hanly sent Dave Sherrick to the penitentiary? The Democrats are talking about discussions among Republicans. Our little family troubles are not a marker to the Democrats. It is a fine spectacle of harmony that the Democrats of Indiana are now presenting to the country. With one faction of the party with its hands on Tom Taggart's throat, and with Democrats all over the state panting for each other's life blood, they can well afford to talk about harmony."

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Hallard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.

CARNIVAL COMPANY BROUGHT IN COURT

Warrants in City and County Courts Taken Out.

Cases Come On Friday Both in Police Court and in Magistrate's Court.

CLIMAX REACHED LAST NIGHT.

The Cosmopolitan Carnival and Wild West company has been warranted by the city and county for operating without the necessary city and county licenses, and the trial will be held Friday, the city trial being set in the morning and the county trial in the afternoon. This action is the result of the light being waved against the carnival being allowed to continue a week longer than originally intended, and members of the Trimble street M. E. church, with residents in the vicinity of Twelfth and Trimble streets are the prime movers in the fight.

The warrants issued by the county were taken out in Justice Charles Emery's court by County Attorney Alben Barkley. They are against each manager of the shows and most of the warrants were served yesterday afternoon and last night. The remainder were served today.

The city warrants were issued by Police Judge D. L. Sanders at the instance of License Inspector George Lehnardt, noting under instructions from Mayor Pro Tem O. B. Starks. These warrants are against the Cosmopolitan Wild West and Carnival company and members of the Paducah Carnival Association executive committee. The trial in city court has been set for Friday morning.

The carnival company had been given permission informally by the aldermen to run another week with the usual privileges, this being secured by means of a petition circulated among the aldermen on the streets and their places of business and was done as a precaution against laying the carnival company liable to arrest for running without a license, it being impossible to formally get the privileges until Thursday night, at the regular aldermanic board meeting.

An attempt was made yesterday to secure a special meeting of the aldermanic board to grant the privilege but Mayor Pro Tem O. B. Starks refused to call it.

No exemptions were secured from the county, as far as is known, and it had not been the custom previously to take out a county license. The move from this source was unexpected by the carnival people.

The carnival was running last night, but on account of the cool weather was but lightly patronized.

Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "run-down," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nerve tonic, it is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuritis, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendly whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggist sells the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "Cathartic Disposer." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Indian Medical and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

PRESBYTERIAN PRAYER BOOK.

Published by Authority of Church, But Some Will Not Use It.

New York, May 9.—The Book of Common Worship has just been published with the authority of the Presbyterian General Assembly, North. For three years a special committee on forms and services of the General Assembly, headed by the Rev. Dr. Henry Van Dyke, has been working on this new prayer book. The approval of the General Assembly to the innovation was not secured without a struggle, as many Presbyterians objected to any "form" in the church.

It is expected by Presbyterian leaders that some churches will refrain from using the new book, but in the east, and in the large cities of the country generally, it is expected to be largely adopted. In many particulars the Book of Common Worship has points of similarity to the Episcopal Book of Common Prayer.

The marriage ceremony in the new book omits the word "obey," to which so many have objected, and it also omits the reference to "worldly goods" with which the man and the woman in some marriage forms "endowed" each other.

It is noted that although the book was, of course, planned long before the San Francisco calamity, one of the prayers it contains is especially applicable to that disaster and shows how carefully the book has been planned to meet unusual circumstances.

REPEAL OF DUTY HAVING ITS EFFECT

Imperial Tobacco Company Opens a Branch at Hopkinsville for Strip Tobacco.

Hopkinsville, Ky., May 9.—The first real results of the repeal of the 5-cent import duty on strip tobacco made by England a few days ago to be noticed in Hopkinsville was the active beginning of this branch of work here yesterday in the plant of the Imperial Tobacco company, which is in reality the English trust. This is the first season which the immense plant here of this company has been operated, and its work has been confined exclusively to packing the tobacco for shipment across the water to England, where it was to be stripped.

The repeal of the 5-cent duty, however, has been taken advantage of by this company here and every pound of tobacco yet remaining unpacked in their establishment will be stripped before being shipped out. Other houses are also expected to immediately follow this example.

PREVENTS MALARIA.

New Austrian Discovery Fine Specie for This Complaint, Asthma, Hoarse and Coughs.

New York, May 9.—The latest discovery in medical research is called ascato and is the product of the Austrians. As a preventive of malarial fever and the allied malarial, Rose and June cures it is undoubtedly the most effective remedy known to physicians.

If taken six weeks previous to the expected attack it will positively prevent these most irritating maladies in any climate. Its results in asthma are marvelous. New literature concerning this remedy and the method of treatment will be mailed free to any address. Write to the Austrian dispensary, 22 West 25th street, New York City.

MEDICAL BODY ELECTS OFFICERS

First Day of the S. W. K. A. Ends Very Pleasantly.

Lecture of Dr. McCormack Well Attended and Was Feature of the Meeting.

WILL FINALLY ADJOURN TODAY.

The Officers.

Edward Shelton, Blandville, president.
Edward Kinsolving, Dulauey, first vice president.
B. P. Earle, St. Charles, second vice president.
Van Silley, Benton, secretary.
C. H. Brothers, Paducah, treasurer.

The first day of the thirty-fifth annual meeting of the Southwestern Kentucky Medical Association came to a close last night with a delightful boat ride on the Ohio river. This followed the address by Dr. J. N. McCormack, of Bowling Green, on "The Relation of the Doctor to the Public," and was a fitting ending to the first day's session.

The afternoon session ended shortly after 5 o'clock and all numbers on the program were successfully carried through. At 8:30 o'clock the evening session began.

Evening Session.

The first business was the election of officers which resulted as above stated. After the election of officers and other routine business of the association, the delegates repaired to the Cumberland Presbyterian church to hear the address of Dr. McCormack, the feature of the meeting.

Dr. McCormack is touring the United States in the interest of the national association and his addresses are attracting attention generally. His talk last night was a very good one and greatly appreciated.

The lecture was one of those speeches that let you in on the ground floor of common sense. As might have been expected the audience was not as large as the merit of the speech and the fame of the speaker deserved, but despite the size of the audience, seed were sown for the betterment of Paducah in more ways than that of health. Dr. McCormack traced the relation of the medical profession has borne to the public in such a way as to show that the public, more than the profession, is vitally interested in the condition of medical practice. The chief danger from poverty in the profession, and what that meant in the way of incompetent practitioners, poor equipment, etc., was to the public.

His speech throughout was characterized by great frankness in both confessing the faults of the profession and in condemning the indifference of the public generally to matters of health. While a great deal has been said about the servility of the newspaper press to corporate influence and the financial side of the business, he did not take that pessimistic view and took occasion to particularly commend the attitude of the press of Kentucky on all matters of public health.

The whole speech showed that every profession, in fact every element of our civic life had interests in common and that the best results could be gotten only by co-operation.

At 10 o'clock the delegation left

METEORITE FALLS IN KENTUCKY

One as Big as Tub Fell on Farm Near Hopkinsville Sunday Night.

Hopkinsville, Ky., May 9.—A meteorite as large as a washtub fell on the farm of J. S. White, near this city, Sunday night, the descent of the fiery body being witnessed by Mr. White.

He says that about 9:30 o'clock Sunday night his attention was attracted by the barking of his dogs and going outside he noticed that the premises were brightly illuminated by the light from the moon having faded into insignificance. Looking upward he saw a ball of fire which was rushing downward and which, even as he looked, had passed directly over his house and struck the ground in some woods several hundred yards distant. Mr. White says that he plainly heard the sound as of a strong wind, which the meteorite made in falling, and also felt the heat, or rather steam, as it swept by him. On account of the heat he has not yet been able to make an investigation of the meteorite, but says he will do so as soon as possible.

Daily Thought.

"The cheerful man's thought sculpts his face into beauty and touches his manner with grace."

SAN FRANCISCO'S CHANCE.

It is well settled that the financiers of the East and of New York especially will make a way for the people of San Francisco to rebuild their town. The Sun's telegraphic columns of yesterday told of this fact in a telegram wherein it was said a conference of financiers was held in New York and the matter had been virtually settled, there being abundant of capital available through offers. The idea has the endorsement of the leading men of San Francisco and is thus explained by one:

"The plan does not involve any guaranty of the city of San Francisco or the state of California, for we believe the reality of San Francisco will be ample guarantee and security for all money invested in the company. The plan, broadly, is to incorporate, co-ordinating subscribers to create a fund which shall be used through the agents of the corporation resident in San Francisco in lending money on the realty, which is worth as much today as on the day before the earthquake."

"It is well known that the records of realty were preserved intact and that the titles are perfectly clear. Ready money should be available before the great bulk of the insurance policies are paid over. As to whether the corporation will be limited to a short term of years or will be made practically perpetual, as a permanent investment, I cannot say."

"Suitable laws will be passed and the people are enthusiastically going ahead and not a dissenting voice will be raised to any arrangement which may be demanded which will be fair, in the line of safeguarding investments. San Francisco does not come here a suppliant, but offering a legitimate investment, which is a good thing and will take rank at the top of financial properties. The concerns with which I am connected are in a position to finance their own rehabilitation. This plan looks to the general restoration."

THE MAYOR PRO TEM.

Mayor Pro Tem Starks is not having a very strenuous time during the absence of Mayor Yelzer, but the position does make a big demand on his time on account of the many details, and little things which have to receive the mayor's attention. Mr. Starks calls at the city hall several times a day to attend to anything needing his attention, and is in touch by the 'phone with headquarters all the time.

The question has been frequently asked does the acting mayor draw a salary during the absence of the mayor and what are his powers? The acting mayor has full executive power, and the question of emolument is usually decided by the mayor and

acting mayor, whether the mayor will draw it or the acting mayor, but courtesy, in such instances, prompts the acting mayor to give it to the mayor.

There is something in a name after all. James Hazen Hyde, who ran off all the insurance trouble, hazing the balance of the gang, is hiding out from all the threatened and probable persecutions of the big rascals. Hyde clearly knew what he was doing when he sold out to Ryan and sold Ryan and his associates when he sold out.

Tom Lawson and Miss Tarbell are perhaps the happiest people in the country over the mess the Standard Oil company finds itself in just now through the report of Commissioner Garfield, the special message of President Roosevelt and the court actions in several states. They are congratulating each other and saying, "I told you so" to the people at large.

The rear is charged with playing false with his people again. The story, which is told fully in a St. Petersburg cable elsewhere, is not well received by the deluded. When such things are chargeable to a ruler is it surprising that so much treachery exists among the subjects? Hardly.

The factions are getting close together on the rate bill. The approach of the day set for a vote upon the act makes compromises easier. It is now thought there will be no delay from a vote on Friday of some kind.

Turkey will swallow the dose England has ordered it to take. Wry fables of stubborn rulers "cut no ice" with England. It is either swallow for fight, with a licking as a certain after clap.

The Cure of Headaches.

By Osteopathy.

"What bone would you pull to treat a headache?" asks a layman. Any bone that may be out of its correct position in the neck or back, so as to bring its pressure upon the nerves which express the pain sense—that is, if the headache happens to be due to a bony slip; but of course it may not be at all. That is one frequent cause, but there are many others which are apt to be operative. A muscular contraction in the back. In the neck, or over the head, may likewise cause headache. Indigestion, eye-strain, mental fatigue, a sluggish liver, constipation, kidney disease, and many other things are frequent causes of headache. Hence the cure of headache osteopathically is the cure of its cause or causes. To find the remedy these causes, having as they usually do, an anatomical basis, requires special and thorough training, and that is why osteopathy exists as an independent school of medicine. Its practitioners are specialists. They cure headaches, as they do other diseases not by "pulling" a bone, unless a bone needs "pulling," but by finding the cause of each special headache and giving that cause whatever treatment is needed to cure it. So in a dozen different headaches none might be treated alike osteopathically, and yet ten or eleven of the dozen would likely be cured.

Osteopathy is probably doing more for suffering humanity than any recent discovery, and I should like for you to investigate its merits. I should be pleased to see all who may be interested in osteopathy at any time from 9 a. m. to 12 and 2 to 5 p. m.

Osteopathy is the sane, rational treatment of illness and disorders.

The critics have disagreed, as they usually do about Viola Allen in her latest play, "The Toast of the Town," which she produced at The Kentucky last night but there would be found few, if any, in the big audience that greeted her here who did not think her "Betty Singleton" the best bit of acting to which she has yet treated her Paducah admirers—and they are a host. There is no doubt of her triumph. In no detail of the characterization of the popular actress of old London, does she fail to score most brilliantly. It is hard to say in which she excels, in the lighter scenes or in the more serious parts.

Clyde Fitch wrote the part for Miss Allen, and he has provided her with splendid opportunities, of which she takes every advantage, to display her art. It is a play of thrills and tears, love and laughter, with a goodly number of pretty little heart touching incidents. The sympathies of the audience go out to "Betty" in the first act, and she has them, in increasing measure, throughout the following scenes until the reconciliation in the final act.

"Betty Singleton," "The Toast of the Town," is a famous actress who reigned in the time of George III. At the height of her career she marries the Duke of Malmshury. She is deeply enamored of him, but he is marrying as a sop to his vanity, which he and "Betty" too late discover. The first act is laid in the green room of the theater on the night of the last appearance of "Betty," and her wedding night, and is a pretty scene. "Betty" carries her audience by storm. The play is over and there is a loud demand for a farewell speech on the part of the audience, which is heard but not seen. Betty rushes from the green room, when the stage is at once as dark as a pocket, and the next that is seen of her she is standing in front of a green baize curtain at the front of the stage, when Miss Allen, still in her character, appears and addresses the real audience, which is supposed to be the one seated in the old London playhouse. Betty disappears! All again is darkness, until she returns into the green room, as before.

"Betty" has her troubles as would be expected from such an alliance. Deeply in love with her husband, who turns out to be the worst of rakes, they have their daily quarrels, and finally, to grant him an opportunity to divorce her, and wed his cousin, who lives with the duke's mother, and whom his mother has always wanted him to marry, "Betty" leaves and goes to live in a garret of a lodging house near the Malmshury mansion so she can be near her husband, although hidden. The cousin, Lady Charlotte, has tried repeatedly to reconcile the duke and "Betty," and exacts a promise from the duke to forswear drink and the dice, which he does, and finally to seek "Betty."

The last act is the garret of the lodging room, and poor "Betty," heart sore and weary, is starving, with no clothing but her old costumes, and no one to look after her

but "an old man lodger." She has tried to get engagements at different theaters under an assumed name and fails. She tells the "old man" she calls the faithful lodger, of her former glories, that she is a duchess and was once a great favorite, and the kindly old soul thinks she is bereft of reason and humors her. She tells him, one day, that she is "Betty Singleton," and it dawns on him that indeed she is,—the same "Betty" whom he had gone to the theater to see times without number, and he tells her how he saw her on her last appearance and how, when she was making her little speech and throwing kisses to the audience, one came up to the top gallery, seeming to find him. He slips away, to go to find the duke, and while he is gone "Betty" takes out her different costumes,—Portia's, Rosalind's, Beatrice's in a vain effort to find one suitable to do a "little dance" in when a manager of a "little theater" calls at her solicitation for a place.

The "old man" returns with the duke, who finds "Betty" in a revelry with the costume she wore on the night of her wedding in her hands and repeating the words he had said to her that eventful night. Love has come into his heart and he has been seeking for her for months, and the reconciliation makes a touching and beautiful scene.

Miss Allen has a very capable company. Miss Isabel Irving, as Roxanne, a pert and mercenary young baggage of an actress has achieved one of the successes of her career. She is very pretty and coquettish, with splendid appreciation of her part. Mrs. Pitt as the Dowager Duchess does a good piece of work and the rest of the cast is up to Miss Allen's standard for good companies.

The audience was one of the largest in the history of the theater, and was a very appreciative one. There were four box parties, and a number of theater parties from Mayfield, Princeton, Eddyville, Kuttawa and the neighboring towns.

WORK OF SNEAK THIEVES.

They Robbed the Larder of Mr. Edward Hansen Last Night.

Burglars broke into the kitchen and pantry of Mr. Edward Hansen, Kentucky avenue between Fourth and Fifth streets, last night, and stole everything in the pantry and kitchen held in the way of groceries and supplies. Entrance was effected through the kitchen door, and no trace was left to lead to identity of the burglars.

There are many similar burglaries committed in Paducah and the thieves seem to go after nothing more than food. The police have been instructed to keep a close lookout for boys who are presumed to be the class of criminals doing the work.

Sanitation Hints.

Good sanitation for 1906 should be your motto. Clean your premises, keep them clean and sprinkle with lime.

Screen your doors and windows and keep out the housefly, the most dangerous of pests. It carries disease and infection.

The most effective money spent in advertising Paducah will be that spent in cleaning and draining it. Every citizen can help to do this, in their own way.

No mosquitoes, no malaria.

LITTLE OF INTEREST BEING DISPOSED OF BY TRIBUNAL.

Rudolph Streit Given Small Judgment Against the City Today As Damages.

In the case of Rudolph Streit against the city of Paducah, a verdict for \$50 damages was returned this morning. Streit owns a farm in Tyler and because of the change in the channel of a culvert the rain water backed up on his farm during the wet season.

At press time this afternoon the case of the Theodore Trondle Coal company against H. Miller Cunningham was being argued. The suit was brought to recover \$140 alleged to be due for a car of coal.

The case of Sam Stone against the Democrat Publishing company was partly tried this morning. It was left open for argument and will probably be concluded this afternoon.

Roosevelt Was Right.

(From Evansville Journal, Rep.) The president judiciously called off Father Sherman's contemplated march through Georgia. That is, he called off the military escort, which was the obnoxious feature. As a civilian, Father Sherman is at entire liberty to ride to the sea by any route that may interest him, and the people of Georgia would doubtless make him welcome by the way. It was apparently not his idea, but that of the officer in command, to give to his pilgrimage the aspect of an army movement, a reminder of General Sherman's historic march. Whoever was responsible, the conception was singularly devoid of tact or taste and it would have been a marvel if the Georgians had not resented it.

The president, on the other hand has shown both tact and taste in his quiet recognition of the Georgia protest, and we may treat the incident as happily closed.

Liquid Air.

A correspondent in Paris, France describes the manufacture for industrial purposes of enormous quantities of oxygen and nitrogen, extracted in the liquid state from atmospheric air. As the liquid oxygen flowed out from the generator it was of a bluish hue, while the nitrogen was colorless. Experiments were made. A forge set up in the grounds showed the wonderful effects of the gas. The fire, which had almost died out, was immediately rendered incandescent by a current of hydroxide from from the blowpipe. A bar of iron was brought to a red heat and then melted like lead. Two pieces of iron were welded in a few minutes by the aid of a powerful flame from the blow pipe. Much costly and tedious riveting will be no longer necessary; iron will be welded against iron, copper against copper, etc. The doctors already foresee the possible treatment with liquid air.

Liquid air has been tried in mines as an explosive agent, and for this purpose marl is wet with petroleum and then saturated with liquid air. The paste thus formed constitutes a good explosive when fired with fulminate, and has the advantage, when it hangs fire, to be without danger as the liquid air evaporates very rapidly.

THE COMMENCEMENT

THE FIRST REHEARSAL WAS HELD YESTERDAY AFTERNOON.

Class Is Being Drilled for Several Musical Features on the Program.

Rehearsals for the annual High school commencement have begun, the first being held yesterday afternoon in the High school auditorium. They will continue until the class is perfectly drilled in this part of the work.

The committee has arranged three musical numbers so far. These are class choruses. The commencement will open with a chorus and there will be an intermediate chorus and a closing chorus. There will likely be several other musical numbers but these will be vocal and instrumental performances.

The musical program is being directed by Miss Hazelton and the regular music teacher. One of the most important feature lectures this season will be that of Miss Virginia Newell tomorrow morning at the High school. Miss Newell, assisted by Prof. Harry Gilbert, will lecture or give an interpretation of the Wagnerian opera "Parsifal." Prof. Gilbert will play the music which the lecture will be interspersed with.

This will doubtless prove one of the most entertaining as well as instructive lectures ever delivered before the High school, and is looked forward to with much pleasure. It is something of a departure from the usual weekly lecture feature.

The annual report of public school work for 1905-06 will doubtless show the advantage of social features in school work. Athletic clubs, the High school paper, "The Ishkoodah" and other features, such as literary annuals, debates, etc., add to the interest and call forth the best in the pupil. It likewise creates renewed interest among the teachers.

\$75 FOR THE PRETTIEST YARDS IN PADUCAH.

The Sun offers a prize of \$75 cash for the prettiest yard in each of the six wards of Paducah, the residents within a half mile of the city limits being deemed eligible for the contest.

Besides these prizes for the different wards, an extra prize of \$15 cash will be given for the prettiest yard in the city at large.

The Sun offers these prizes to stimulate an interest in handsome yards.

The contest will be decided July 15, by a committee to be selected at a later date.

The only condition of the contest is that entries must be subscribers of The Sun.

People and Pleasant Events

Matinee Musical Club.

The Matinee Musical club is having its regular semi-weekly meeting this afternoon at the club's quarters in the Eagle building on Broadway. Mr. Harry Gilbert is the leader and the program is an attractive one of Italian composers:

Logic Sonata—Muzia Clementi (1752-1822)—Mr. Harry Gilbert. Arias from "Ernani" arranged from Verdi by Chas. M. Davis.—Mrs. Jas. Wellie.

"Il Trovatore"—Selection—Verdi (1813-1891)—Miss Virginia Newell. "Leave Me Not"—Tito Matti (Living)—Mr. Richard I. Scott.

Intermezzo from Cavalleria Rusticana—Mascagni—Mr. Wm. Deal.

Prologue to "I Pagliacci"—R. Lequavallo (1858)—Mr. Emmet S. Hagby.

Groom Known Here.

Monday's Nashville Banner says: "Announcement has been made by Mr. and Mrs. Felix F. R. Smith of the coming marriage on June 14 of their daughter, Annabel, and Mr. Harry F. Bringham. The bride is a cultured and charming girl, a member of a fine old Tennessee family. Mr. Bringham, who is the son of Mr. and Mrs. William Bringham of Clarksville, and a brother of Mrs. Walter Clarke and Mrs. Lulu H. Epperson, is a capable Nashville business man who is socially very popular."

Mr. Bringham is a brother of Mr. Edward Bringham of this city, and has visited here on several occasions. Mr. Bringham will be his brother's best man at the wedding.

High Noon Wedding.

Miss Cora Jameson, of Birdsville Ky., and Mr. Ernest Ray, of Bayou Mills, Ky., were married at noon today by the Rev. C. C. Perryman at his home, 421 South Ninth street.

Both are prominent and popular young people in their respective sections. The bride is the daughter of Mr. James Jameson, a wealthy farmer of the Birdsville section and the groom is the son of Mr. Charles Ray, a leading resident of Bayou Mills. They were accompanied by Mr. and Mrs. J. R. Nelson, of Birdsville, and Miss Alice Ray of Bayou Mills, a sister of the groom.

The couple returned to Bayou Mills where they will reside, this afternoon.

U. D. C. Meeting.

Paducah chapter U. D. C. held the regular meeting for May yesterday afternoon with Mrs. Frank Coburn, of the Sanders flats. Routine business was chiefly the order of the session. The chapter voted to contribute toward the state U. D. C. fund for the benefit of the U. D. C. chapter in San Francisco. A musical program was rendered and delightful refreshments were served.

Reception This Evening.

Mr. and Mrs. James H. Rudy will receive this evening at their home on Kentucky avenue in honor of Mr. and Mrs. Henry Rudy. It will be one of the most brilliant affairs of the season. The handsome Rudy home is beautifully decorated for the occasion and there will be a number of guests in the receiving line.

This Is a Republican Year.

(From Louisville Herald.)
A sure Republican year is 1906. A new congress is to be elected and the Republican party must win it or put in peril the presidency two years hence. The present Republican majority in the house is 122. No one expects so large a majority in the next house, but some net of Democratic folly may, before election day, turn the tide so overwhelmingly Republican as to make the victory just as pronounced as that of 1904. The Roosevelt tidal wave of that year had, of course, much to do with the winning of so many congressional seats, and a Roosevelt tidal wave may be in order this year, also.

The president's policies are on trial. He needs a strong expression of popular endorsement. Speaker Cannon has identified himself, prominently and most creditably, with the presidential program. To elect a Democratic house were a severe setback to the Republican cause, an affront to the president and a rebuke to Mr. Cannon.

There should be a large working majority in the next congress for the president's policies. No doubt we entertain that the people will rally generously and enthusiastically to the support of the nation's leader. Roosevelt is just as much an issue today as in 1904. If he needed support in that year to be placed in a position for the successful inauguration of adequate and comprehensive schemes for American betterment, he needs to be, today, placed above danger of being unable to carry out the plans and policies already inaugurated.

The Democrats look for gains in the next house to Illinois, Pennsylvania, Ohio, Indiana and New York, but there is really little ground for this hope. The Republican pluralities in all the Illinois districts, all but one Republican, were in 1904 large. The Socialists made fearful inroads two years ago on Democratic voting strength in Illinois. They may cut into it deeper than ever this year. A solid Republican delegation from Illinois is not improbable. A like occurrence may surprise the Democracy of Ohio. The Democrats of New York may lose several city seats on account of the quarrel between Hearst and McClellan. Pennsylvania may send an unbroken Republican delegation, especially so, as the Democrats threaten to make the tariff their principal issue. Indiana, which now sends two Democrats to congress may in the Sixtieth congress have no Democratic representative. The party is badly split in the sister state. The people's general prosperity argues strongly against any change. The dangers of the future can be best met by the measures proposed by President Roosevelt. Hence the great states of the Middle West and North will not in midstream swap horses.

Small Blaze on Madison street.

The Nos. 1 and 3 fire companies were called to the residence of Mrs. W. N. Cubel, at 727 Madison street, this morning at 11 o'clock. A wood shed was affre but was not burned the firemen extinguishing the blaze before it gained any headway.

A Baby's Death.

Edward Moore, age 2 years and 9 months, son of Mr. George J. Moore of 913 South Third street, died this morning of brain fever. The funeral will be held tomorrow from the residence, interment at the Catholic burial ground.

Mrs. Girardley is offering, for the balance of the week, sixteen dozen Pattern Halls at wholesale cost.

SUMMER THIS SUMMER IN COLORADO

Many people put aside all thought of an outing in Colorado because they are accustomed to consider this greatest of American play grounds as one of those impossible things beyond their means. Time was when a visit to the "top of the continent" was a great luxury, as high in price as in altitude, but not so today.

You can spend the summer or a part of the summer in Colorado and live as reasonably as you do at home, and the quick service and low tourist and excursion rates afforded via Rock Island lines bring the Rockies within your easy reach.

Supreme Court Wipes Out Secrecy of Corporations, Which Means a Victory for Government.

Washington, D. C., May 5.—President Roosevelt believes that a great advantage is to be given to the government in its war against criminal trusts by the recent decision of the United States supreme court in the so-called tobacco trust case.

A careful reading of the full decision, says Attorney General Moody, shows that the results will be to open the books of every corporation engaged in interstate commerce to government inspection, thus making it possible to reach the secret doings of great corporations which work in the dark. In the past this has been the great obstacle to successful prosecutions. The business of the concern would be done in indirect and subterranean ways, and the books were always regarded as strictly private. Any demand to inspect them has been considered an invasion of personal liberty and a trespass on private property. But the supreme court says otherwise.

It is now discovered that the department of justice may, under proper legal process, examine books, records and papers of any corporation doing an interstate business.

And such evidence may be used to support criminal prosecutions. There is no question of immunity.

The effect of this determination of the law, it is believed, will be tremendous. In fact, Attorney General Moody does not hesitate to say that the decision is one of the most important and sweeping ever made by the United States supreme court.

Made Happy for Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, Vt., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and ailments, guaranteed by McPherson's.

RED MEN OPEN ANNUAL SESSION.

Welcomed by Gov. Beckham and Mayor Hume, of Frankfort.

Frankfort, Ky., May 5.—The Kentucky Great Council of Red Men met here Tuesday morning at 11 o'clock in the twelfth annual council. Gov. Beckham delivered an address of welcome, in which he said that his distinguished predecessor, Gov. Shelby, would have given the Red Men a warmer reception 100 years ago than the one tendered by Frankfort today but not wear so hospitable.

Great Sachem Hobart, of Paducah responded to the governor's address. The opening exercises were then concluded as follows:

Address of Welcome to the City of Frankfort—Mayor E. E. Hume.

Response—Great Senior Sagamore D. H. Russell.

Address of Welcome—Representative Blackfoot Tribe, T. Hiter Crook.

Response—Junior Sagamore R. L. Page.

Address of Welcome—Col. Geo. H. Harper, president of Frankfort Business Men's club.

Response—Past Great Sachem H. H. Denhardt.

LEXINGTON'S MAYOR COMBS TALKS PLAINLY TO KICKERS

Will Smash the Saloons if They Don't Close, As Ordered.

Lexington, Ky., May 5.—Sunday saloon closing reached an acute phase here yesterday when Mayor Thomas A. Combs announced that he would close the saloons and keep them closed if he bankrupted the city.

A delegation of saloonkeepers had announced that some would continue to reopen as fast as released on bond. The mayor replied that he would instruct the police to arrest such men as many as three times, but if they persisted and reopened on a fourth time, he would then instruct the officers to destroy their property and smash everything in the saloons. "If you want to go to court and test the law, do so. Then if the court decides against me, you may open and stay open. My hands will have been tied," is what he told his visitors. The case will probably be tested in all the courts of the state.

PASSES FIRST LAW OF THE CONFERENCE

Southern Methodists Concur in Motion Reports of Revivals Committee.

Birmingham, Ala., May 5.—The general conference of the Methodist Episcopal church, South, passed its first law Monday when it concurred in the main report of the revivals committee, as amended on powers of unordained preachers. Under the new law preachers who have not been ordained may preach the gospel, celebrate the rite of matrimony, and in the absence of an elder or bishop, administer baptism, and, in the absence of the presiding elder or bishop, control the appointment of all services to be held in the church in his charge with the understanding that all permanent powers of ordination are conferred until the same shall be granted by the laying on of the hands after he shall have met the disciplinary requirements.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for sore lungs, coughs and colds, at McPherson's Drug Store. Price 50c and \$1.00. Trial bottle free.

Murphy Gets Judgment.

Carl Murphy was yesterday afternoon late given a judgment for \$500 damages against the I. C. for personal injuries sustained when the Calvo extension of the road was being built. He was riding on a hand car near Harlow, Ky., when a freight train came up behind while he was on a trestle and forced him to jump off, and in the jumping was injured. He sued for \$2,000.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stiekel, of Millets, W. Va. "Persistent use of the Salve completely cured it." Cures cuts, burns and injuries. 25c at McPherson's drug store.

Suit in Quarterly Court.

THE SPENDERS

A TALE OF THE THIRD GENERATION

By HARRY LEON WILSON

Copyright, by Lothrop Publishing Company.

Over the mantel from its yellow canvas looked above her head the humorously benignant eyes of old Anneke Van Schoude, who had once removed from Maspeth Kill on Long Island to New Haarlem on the island of Manhattan, and carried there, against her father's will, the yellow-haired girl he had loved. His face now seemed to be pretending unconsciousness of the rashly acted scenes he had witnessed—lest, if he betrayed his consciousness, he should be forced, in spite of himself, to disclose his approval—a thing not fitting for an elderly, dignified Dutch burgher to do.

"Avie!"
"Coming!"
She took up a little package and brought with her and went out to meet him.

"There's one errand to do," she said, as they entered the carriage, "but it's on our way. Have him go up Madison avenue and deliver this."

She showed him the package, addressed: "Mr. Hylon Shepler, Personal."

"And this," she said, giving him an unsealed note. "Read it, please!"

He read:

"Dear Hylon Shepler: I am sure you know women too well to have thought I loved you as a wife should love her husband. And I know your bigness too well to believe you will feel harshly toward me for deciding that I could not marry you. I could of course consistently attribute my change to consideration for you. I should have been very little comfort to you. If I should tell you just the course I had mapped out for myself—just what latitude I proposed to claim—I am certain you would agree with me that I have done you an inestimable favor."

"Yet I have not changed because I do not love you, but because I do love some one else with all my heart; so that I claim no credit except for an evenly consistent selfishness. But do try to believe, at the same time, that my own selfishness has been a kindness to you. I send you a package with this hasty letter, and beg you to believe that I shall remain—and am now for the first time, sincerely yours,

"AVIE MILBURY HINES."
"P. S.—I should have preferred to wait and acquaint you with my change of intention before marrying, but my husband's plans were made and he would not let me delay."

He sealed the envelope, placed it securely under the cord that bound the package, and their driver delivered it to the man who opened Shepler's door. As their train emerged from the cut at Spuyten Duyvil and sped to the north along the Hudson, the sun blazed forth.

"There, boy—I knew the sun must shine to-day."

They had finished their breakfast. One-half of the pink roses were on the table, and one from the other half was in her hair.

"I ordered the sun turned on at just this point," replied her husband, with a large air. "I wanted you to see the last of that town under a cloud, so you might not be homesick so soon."

"You don't know me. You don't know what a good wife I shall be."

"It takes nerve to reach up for a strange support and then kick your environment out from under you—as Hector von Herlich would have said if he'd happened to think of it."

"But you shall see how I'll help you with your work; I was capable of it all the time."

"But I had to make you. I had to pick you up just as I did that first time, and again down in the mire—and you were frightened because you knew this time I wouldn't let you go."

"Only half-afraid you wouldn't—the other half I was afraid you would. They got all mixed up—I don't know which was worse."

"Well, I admit I fooled my approach on that copper stock—but I was young, really my wifalage in Wall street are pretty dazzling, after all, for a man who didn't know the ropes—there's a mirror directly back of you, Mrs. Dines, if you wish to look at them—with a pink rose over that kissy place just at their temple."

She turned and looked, pretending to be quite unimpressed.

"I always was capable of it, I tell you—boy!"

"What hurt me worst that night, it showed you could love some one—you did have a heart—but you couldn't love me."

She did not seem to hear at first, nor to comprehend when she went back over his words. Then she stared at him in sudden amazement.

He saw his blunder and looked foolish.

"I see—thank you for saying what you did last night—and you didn't mind—you came to me anyway, in spite of that."

She arose, and would have gone around the table to him, but he met her with open arms.

"Oh, you boy! you do love me—you do!"

"I must buy you one of those nice, shiny black ear trumpets at the first stop. You can't have been hearing at all well. . . . See, sweetheart—out across the river. That's where our big west is, over that way—Isn't it fresh and green and beautiful?—and how fast you're going to it—you and your husband. I believe it's going to be a good game . . . for us both . . . my love."

THE END.

ELECTION LAWS

Hits Legislature for Not Unseating Louisville Delegation and Reinstating Last Fall's Elections.

Lawrenceburg, Ky., May 9.—The regular term of the Anderson circuit court began here yesterday, with Judge H. F. Peak on the bench. In his charge to the grand jury the judge charged them especially with reference to manslaughter as committed by railroads or other corporations, and instructed them to indict in every case where death had been caused by the reckless handling of trains or notoriously bad track.

He referred in scathing terms to the election held in Louisville last fall, and said that although one of the officers elected at that time had told the legislature that such another election would result in bloodshed, that body had refused to make any changes, and denounced the election laws of this state as infamous. There is a light docket, and the court will probably adjourn this week.

FIGHT OIL TRUST

Possibility of Co-operation of Federal With State Officials in the Contest—Sure to Come.

Washington, D. C., May 9.—The possibility of a co-operation of federal officials with state officials in Kentucky in fighting the Standard Oil trust in Kentucky is talked about here. It is the policy of the administration to co-operate with state attorney generals in fighting the Oil Trust. The attorney general of Ohio is here, summoned by the president, and the attorney generals of Kansas and Texas are expected very soon. In his recent investigation, Commissioner Garfield secured much evidence that is not available for use by the government, but which can be used by the state in fighting the trust under state statutes.

CHEAPER FARM LAND.

Southwest Offers Best Opportunities for Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the southwest. Many who have been unable to own their homes in the older country are buying land in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific, Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn a bale of cotton, 4 to 6 tons of alfalfa, 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums, grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

This is a fine stock country. No long winter feeding. Free range, pure water mild climate. A healthy, growing country, with a great future.

STANDS THIRD

EVANSVILLE DISTRICT RECRUITING OFFICE CLOSE TO NEW YORK.

A Fact Which Will Surprise and Interest the People—More Men Yesterday.

Last night Lieut. Wm. L. Reed, recruiting officer at Evansville, Ind., enlisted Charles L. Owea, of East Prairie, Mo., for the cavalry service, and Agie S. Boyin, of Golconda, Ill., for the infantry division of the army. These men were recruited at the local recruiting office in charge of Sergeant Blake. Both men were forwarded to Jefferson Barracks, Mo., to the training school. There were six applicants, but four were held over for probation.

The Evansville district, of which Paducah is a part, ranked third, for the quarter ending March 31 1906, for the number of men enlisted in the United States. New York City and Indianapolis, Ind., were the only two districts ahead of it. Twenty-eight men have been enlisted in the Evansville district during the month of April, the other stations besides Paducah being Owensboro, Ky., and Vincennes, Ind.

ROBBERY STORY

MERELY A MYTH

Police Believe Spier Ended His Own Life—Indications Point to Suicide.

New York, May 9.—Police officials who have been investigating the mysterious death of Charles L. Spier, confidential agent of H. H. Rogers, who was found dead in his home, in Staten Island, Monday, reported Monday that the evidence indicated that Spier had committed suicide. Mrs. Spier had informed the police that Spier left his bed chamber to go to the dining room in search of a burglar, and that she afterward heard shots. Except that the furnishings of the dining room, in which the body was found, were disarranged the police say that there was nothing about the house to indicate the presence of a burglar. One door was found unlocked, but without signs of having been forced, and an active bull dog, which accompanied Mr. Spier to the dining room took no part in the reported duel with the burglar if there was one.

On the other hand, the police have ascertained that one month before his death Mr. Spier had insured his life for \$75,000, and had been obliged to discount a note for \$1,357 to pay the premium on one of the policies when it became payable last Saturday. The policies were payable regardless of the cause of death, and the beneficiary had been changed from Mrs. Spier to a trustee of his estate.

The police have discovered also that a judgment in bankruptcy for \$50,870 had been outstanding against Mr. Spier and others since February last. These judgments were entered after the Yettman Transmuting Typewriter company, of which Mr. Spier was president, went into bankruptcy.

Dr. H. W. Patterson, Mr. Spier's family physician, who was one of the first to reach the Spier residence after the shooting, said today that he does not believe Mr. Spier committed suicide, but thinks he was killed in a fight with a burglar.

MORE WIFE ABUSERS.

Two Were Before Judge Sanders in City Court Today.

John Gillisple, colored, is under arrest charged with malicious cutting, and his case was continued this morning in the city court on account of the absence of the prosecuting witness, Gus Nolan, who is not able to attend court. Nolan drives for Charlie Clark, the liveryman, and two nights ago alleged he drove Gillisple in his cab. The fare was 50 cents and the passenger, Nolan alleged, refused to pay. This brought on trouble and Nolan was cut several times.

Charles Hamilton, white, who abused his wife, was fined \$10 and costs. Hamilton states that this is his first time in court and that he had gotten the "hot end" of it. He claims he was not responsible for mistreating his wife; that she brought it on herself.

Pete Peterson, white, charged with attacking Albert Wyatt, was granted another continuance.

Louis Hill, colored, was fined \$20 and costs for mistreating his wife.

CROPS IN KENTUCKY

A FALLING OFF IN THE YIELD OF DARK TOBACCO.

General Agricultural Condition in State as Shown by the Report of Commissioner Vreeland.

The monthly report of Commissioner of Agriculture Vreeland which has just been issued, says:

"The month of April was fair, warm and dry, giving the farmers a good opportunity to recover some of the lost time caused by the bad, wet weather in March. Toward the end of the month there was considerable complaint of the ground breaking cloddy and was hard to get in order for corn planting. The usual acreage of corn will be planted, though a little later than usual."

Wheat Crop Good.

"The wheat crop is fairly good throughout the state, only a few counties reporting any damage to the crop. The acreage of oats is below the average on account of the lateness of the season before they could be sown. Quite a number of counties report a low per cent on the condition of plant beds, caused by late sowing. The yield of the Hurley tobacco seems to have increased slightly over the crop of 1904, while the dark has fallen off about 10 per cent in yield. The seeding of alfalfa increased largely in the first and third division of the state, but fell off in the second and fifth, the fourth not making any report on it."

Falling Off in Live Stock.

"There is quite a falling off in both cattle and hogs being fed for market. Grazing cattle and stock hogs are also below the number at this time last year. Lambs are in fair condition, but the number for the summer market is less than last year. The potato crop is about the usual crop in acres. The prospect is good for a fair crop of fruits and berries."

Growing Aches and Pains.

Mrs. Josie Sander, Bremont, Tex., writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and \$1.00.

SECURING ROUTE

L. & N. RAILROAD IS SAID TO BE DOING THIS IN TENNESSEE.

First Active Steps Towards L. & N. Coming Into This Territory Reported.

The L. & N. railroad from every indication means business in the matter of coming through from Nashville to Cairo via Mayfield, and has taken active steps towards buying the right of way.

Tobacco men who have been buying tobacco in and about Puryear, Tenn., stated this morning that rights of way have been bought near Puryear and the money actually paid for them. The deeds in some instances have been made out and filed and the road from every indication has begun to do business right.

This is the proposed southern route. The northern route cut a little higher up and came through near Hazel Ky. Either route will touch Mayfield, however, and it is said the people in Mayfield are greatly excited over active preparations to build the road.

CAN'T HELP THEM.

Commissioner Sutherland Hears Many Complaints Made by the People.

Mr. R. R. Sutherland, fire and police commissioner, thinks that the troubles of a city official never cease. In plain words he has found the idea of "go tell your troubles to a policeman" pretty well in vogue in Paducah, and has been inconvenienced to no little extent through telephonic calls, personal conferences and in fact in correspondence of late relative to matters involving people's troubles.

"I have been bothered a great deal by appeals from residents in a certain locality on the South Side, where it is alleged women of a questionable character reside," he explained. "Sunday and every day and night since I have received some complaint from this source and somehow every one thinks I can remedy it because I am a police commissioner. If the women are not of good character and do anything to warrant their expulsion from the neighborhood it should be done legally, and I have no authority to take action. I advised the residents to appeal to the landlord and see if this cannot remedy the matter."

Residence Robbed.

Capt. Thomas Herndon reported to the police last night a burglary at his residence, on Washington between Fourth and Fifth streets. The burglary was committed by small colored boys shortly after noon. A small savings bank was broken open and a few coins taken, and a lot of wearing apparel was also stolen. The police think they will be able to arrest the guilty.

RUINING TREES

JOHN PRINCE HAD SEVERAL RUINED BY OVINES LAST NIGHT.

Cows Are Released at Night When Cow Police Sleeps, It Is Claimed.

Mr. John Prince, who resides on West Tennessee street was the maddest man in town this morning when he discovered the condition of some young shade trees he had set out and nursed for several years.

The trees had been safely boxed from the cows and horses, and since the cow law was passed and enforced Mr. Prince felt safe in tearing away the boxes, the trees not appearing to thrive well encased as they were.

Last night the boxes were removed and this morning the trees were ruined. Cows had eaten some half in two. It is said that some residents in that portion of the city keep up their cows during the day and release them at night, the cow police being off duty at night. This has suggested the appointment of a night police, and it may be the council will act in the matter.

Mr. Lycurgus Rice, the cow police, states that he will gladly respond to any appeal made him at any time during the day or night to arrest cows or horses found running at large in the city.

Some claim that the police are not trying to enforce the law. It is really not the duty of the police, according to the view taken by some officers to arrest cows, but Judge Sanders is heart and soul in the enforcement of the ordinance and has done his part since the ordinance became effective.

CRIMINAL ACTION

Will Be Brought Against Officials of Standard Oil Company in Ohio.

Columbus, O., May 9. Assistant Attorney General Miller says that criminal proceedings will be brought against the officials of the Standard Oil company in Ohio.

"Both criminal and civil suits will be instituted against the officials as soon as the attorney general returns," he said.

Attorney General Ellis left today for New York, and it is rumored here that he went to New York to secure additional facts against the Standard Oil company, but this is denied at his office here.

The New Orleans Times-Democrat says: "Local steamboatmen report a most unusual occurrence at Baton Rouge last Saturday. It seems that on that day a large wave, estimated at over five feet high, came sweeping down the river, sinking a coal barge, the property of W. G. Coyle, of this city; sweeping away several thousand dollars' worth of valuable lumber, and for a time threatening the destruction of the coal fleet in the harbor. The wave is explained by a sudden change in the wind and by the fact that a few miles above Baton Rouge, there is a great eddy in the river. Throughout the morning and part of the afternoon the wind had been blowing steadily from the
